Electricity

Update: Companies Restore Electricity to Nearly All Affected Customers from Texas to South Carolina by February 16

Storms moved from the Gulf Coast to the U.S. Southeast over the weekend, cutting power to 49,000 South Carolina Electric & Gas customers and 32,000 Berkeley Electric Cooperative customers in South Carolina, news sources reported. Storms were also to blame for at least 4,600 Georgia Power outages in Georgia. Companies, however, had restored electricity to nearly all customers in Texas, Louisiana, Mississippi, Alabama, Arkansas, Georgia, and South Carolina, as of latest reports. The storms knocked out electricity to more than 300,000 customers, combined, across the region.

Delta Energy Center's 880 MW Delta Energy Center Gas-fired Unit in California Ramps Up by February 12

According to the California Independent System Operator, the unit reported a return from an unplanned curtailment of 265 MW.

<http://www.caiso.com/unitstatus/data/unitstatus201002121515.html>

Calpine's 561 MW Los Medanos Gas-fired Unit in California Returns to Service by February 15

According to the California Independent System Operator, the unit reported a return from an unplanned outage. <http://www.caiso.com/unitstatus/data/unitstatus201002151515.html>

Watson Cogeneration's 417 MW Watson Gas-fired Unit in California Ramps Up by February 13

According to the California Independent System Operator, the unit reported a return from an unplanned curtailment of 227 MW. <http://www.caiso.com/unitstatus/data/unitstatus201002131515.html>

PG&E's 404 MW Helms Hydro Unit 3 in California Returns to Service by February 14

According to the California Independent System Operator, the unit reported a return from an unplanned outage. <http://www.caiso.com/unitstatus/data/unitstatus201002141515.html>

AES's 179 MW Redondo Gas-fired Unit 5 in California Returns to Service by February 12

According to the California Independent System Operator, the unit reported a return from an unplanned outage. <http://www.caiso.com/unitstatus/data/unitstatus201002121515.html>

AEP's 721 MW Pirkey Coal-fired Power Plant in Texas to Shut February 15-25

American Electric Power (AEP) expected to fix a boiler tube leak, it said in a filing with state regulators. <http://www11.tceq.state.tx.us/oce/eer/index.cfm?fuseaction=main.getDetails&target=135835>

Luminant to Restart 793 MW Martin Lake Coal-fired Unit 3 in Texas February 16

The company shut the unit by February 15 “to make electrical repairs on the wire to the exciter field breaker,” it said in a previous filing with state regulators. The unit had just returned from another, apparently unrelated outage, according to a separate regulatory filing.

<http://www11.tceq.state.tx.us/oce/eer/index.cfm?fuseaction=main.getDetails&target=135842>

<http://www11.tceq.state.tx.us/oce/eer/index.cfm?fuseaction=main.getDetails&target=135843>

El Paso Corporation Plans 636,000 Dth/d Expansion along Natural Gas Pipeline in U.S. Northeast

El Paso's Tennessee Gas Pipeline Company (TGP) has executed binding, 20-year term agreements with two companies for 100 percent of the expanded capacity, it said in a news release. The project would boost service by 636,000 Dth/d from TGP's 300 Line in Pennsylvania to an interconnect in New Jersey. El Paso expects to hold an open season this month, and open the project on November 1, 2013.
